

IANTD Deep Air Diver

The IANTD Deep Air Diver program is an excellent program to prepare divers to dive in more challenging environments and trains divers in skills, performance, theory and planning of deep dives. Once you have completed this course, you will be qualified in safe diving practice on air to a depth of 39m anywhere in the world.

Pre requisites

- Aged 15 years or older
- Certified as an Advanced Open Water Diver
- Provide proof of 10 logged dives

Course Details

There are two evenings of Knowledge Development & the topics covered include:

- Oxygen
- Nitrogen Narcosis
- Decompression Theory
- Deep diving breathing techniques
- Dive planning and gas management
- Physiological and Psychological considerations for deep diving
- Dive fitness
- Hypothermia
- Eating for diving fitness - antioxidants
- Equipment configuration

The practical element of the course involved five dives. The first is a check out dive under a pier where new skills are demonstrated and learnt. The next four dives are boat dives to a maximum depth of 39m where the skills are developed and demonstrated under the watchful eye of your instructor. Over the duration of the course you will learn many new diving skills out in the open water that will make you a safer and a more confident diver:

- Lift bag deployment
- Air sharing techniques
- Timed ascents
- Valve shutdowns
- Calculate RMV at depth
- Accurate hover
- Out of air scenarios
- Equipment failures
- Gear removal and replacement
- Swim a distance at depth without a mask
- Perform decompression stops
- Propulsion techniques

Cost **\$650.00** per student and includes

- IANTD Deep Air Diver Manual
- All Air Fills
- 1 Shore Dive
- 4 Boat Dives
- IANTD Deep Air Diver certification

Please Note: Equipment hire fees are not included.
See our staff for more details.
